

**Town of Barnstable
Recreation Division
&
Cape Cod Maritime Museum
“Build a Bevin’s Sailing Skiff”**

This is a unique opportunity for a team of student’s to build a bevin’s sailing skiff from scratch together and row it on the last day! Through the building process, participants improve critical math skills, & journey on the ‘work-readiness’ path with adult volunteer mentors. This program received a grant from the *John F. Kennedy Memorial Trust Fund* to purchase material needed for building the boat. This has made the program’s costs more affordable. After the participant’s sail the boat it will be put on display in the Intermediate School and then auctioned off with funds going back into the program so the program can sustain itself in the future. Additional hours will be also be made available with mentors, if participants are available.
